Unconscious Apr 30 2020 In this, his most famous and influential work, Carl Jung made a dramatic break from the psychoanalytic tradition established by his mentor, Sigmund Freud. Rather than focusing on psychopathology and its symptoms, the Swiss psychiatrist studied dreams, mythology, and literature to define the universal patterns of the psyche.

The Doctor and the Soul Feb 27 2020 In this classic work, internationally known Viennese psychiatrist Viktor E. Frankl, founder of the school of logotherapy, sets forth the principles of existential psychiatry. He holds that man's search for meaning in existence is a primary facet of his being; if the search is unrequited, it leads to neurosis. The role of the therapist, then, is to help the patient discover a

purposefulness in life.

Seek the Face of God May 12 2021 Invites us to explore how our conscious and unconscious experiences have shaped our perceptions of God. This book also encourages us to develop God images that are nurturing and healing.

The Murmuring Deep Apr 22 2022 From one of the most innovative and acclaimed biblical commentators at work today, here is a revolutionary analysis of the intersection between religion and psychoanalysis in the stories of the men and women of the Bible. For centuries scholars and rabbis have wrestled with the biblical narrative, attempting to answer the questions that arise from a plain reading of the text. In *The Murmuring Deep*, Avivah Zornberg informs her literary analysis of the text with concepts drawn from Freud, Winnicott, Laplanche, and other psychoanalytic thinkers to give us a new understanding of the desires and motivations of the men and women whose stories form the basis of the Bible. Through close readings of the biblical and midrashic texts, Zornberg makes a powerful argument for the idea that the creators of the midrashic commentary, the medieval rabbinic commentators, and the

Hassidic commentators were themselves on some level aware of the complex interplay between conscious and unconscious levels of experience and used this knowledge in their interpretations. In her analysis of the stories of Adam and Eve, Noah, Jonah, Abraham, Rebecca, Isaac, Joseph and his brothers, Ruth, and Esther-how they communicated with the world around them, with God, and with the various parts of their selves-Zornberg offers fascinating insights into the interaction between consciousness and unconsciousness. In discussing why God has to "seduce" Adam into entering the Garden of Eden or why Jonah thinks he can hide from God by getting on a ship, Zornberg enhances our appreciation of the Bible as the foundational text in our quest to understand what it means to be human.

Unconscious Christianity in Dietrich Bonhoeffer's Late Theology Oct 05 2020

"Eleanor McLaughlin traces the development of Bonhoeffer's work on unconscious Christianity in his writings and constructs a definition of the term, shedding light not only on Bonhoeffer's later works, but his theological development as a whole"--
Before Belief Jun 12 2021 First things are spiritually and theologically important. *Before Belief* explores the precognitive human experience of transcendence, illuminating how such foundational experiences are formative of attachment relationships with people and ultimately with God.

The book proposes an implicit learning model rather than rely on Freud's or Jung's understanding of the unconscious, with a goal of recovering unconscious spiritual learning. Once discovered and put into language, early learning needs to be tested and integrated into life experience and expressed in committed living. The theories examined and advanced in the work are also carried through in practical case studies that demonstrate the pastoral and clinical salience of understanding and connecting people to those grounding experiences.
Centering Prayer and the Healing of the Unconscious Nov 29 2022 In this searching study, Fr. Murchadh Fr. Ó Madagáin describes the life and thoughts of Fr. Thomas Keating, the Trappist monk who was one of the founders of the centering prayer movement. Centering prayer aims to reclaim the Christian contemplative and mystical traditions after centuries of neglect and to make it available for modern spiritual seekers. Fr. Ó Madagáin traces its roots back to the fourth- and fifth-century Desert Fathers such as Evagrius and John Cassian. He shows how it was used in the medieval classic *The Cloud of Unknowing* and practiced by saints John of the Cross and Teresa of Avila, then revived by Thomas Merton during the twentieth century. Fr. Ó Madagáin illustrates how, by bringing the insights of contemporary psychology to bear on this ancient method of prayer, Fr. Keating has not only

revitalized the contemplative tradition, but also has enabled it to become a powerful tool for people of faith to gain insight into themselves and God, whom Keating calls the divine healer. Fr. Ó Madagáin also unpacks the processes at work in centering prayer and clears up some of the common misunderstandings that surround it. *Centering Prayer and the Healing of the Unconscious* is an essential work for all those interested in the history and practice of centering prayer. In addition to describing the background of this unique and effective practice, Fr. Ó Madagáin offers unique insights into the ideas of one of its leading contemporary teachers and practitioners.

Picturing God Jan 08 2021

Picturing God demonstrates the importance of confronting our unconscious selves and allowing our images of God - both positive and negative - to surface. Such inner exploration reveals not only relevant insights about ourselves, but also pulls us beyond our private pictures of God toward a truer view of the living God.

Picturing God shows us how to explore our unconscious selves and how this spiritual exercise can change the whole of our lives: how we respond to God, how we relate to others, and how we view ourselves.

God and the Unconscious Oct 17 2021

God Is Unconscious Dec 31 2022 Sailing into New York Harbor, Sigmund Freud stood on the deck and gazed upon a statue that was meant to symbolize someone else's

vague notion of freedom. The embryonic field of psychology--so very interested to hear this theory, which excavated the depths of the psyche--anticipated his arrival in America with lamentably eager fanfare. Whether out of hubris or prescience Freud could only whisper, "They don't realize we are bringing them the plague." It was a theory that undercut our creative justifications for every action and belief, and it suggested our anxious identities are charted by a big Other--one we cannot begin to comprehend. As psychoanalysis undergoes a resurgence of interest within religious studies, political theory, and cultural criticism, its innovative and peculiar claims remain difficult to grasp without any guide for the perplexed. In *God Is Unconscious: Psychoanalysis and Theology*, Tad DeLay explores the provocative teaching of psychoanalyst Jacques Lacan and its implications for Christianity. Partly an introductory exposition of Freud, Žižek, and Lacan, and partly an application of psychoanalysis to religion and politics, this book is organized as a theological meditation on an incendiary theory.

The War of the Mind: Understanding Inflation and Alienation Jul 14 2021

Christians say that Jesus Christ had two natures - divine and human. What would that be like? According to Carl Jung, we are all Jesus Christ. Our human part is our ego, the center of our consciousness, while our divine part is our Self, the unconscious center of

our entire psyche. With Jesus Christ, both natures - divine and human - were conscious in one person. According to Jung, the problem for humans is that our divine nature is unconscious and our conscious human nature is, for the most part, completely unable to communicate with our inner God. If it could, we would all be Jesus. Instead, the human mind is at war with itself. The part that is truly connected to reality is our unconscious Self, the God inside us. The part that is prone to making up reality - the part that lives in a fantasy world of its own devising - is our conscious human part. For Jung, the ego (consciousness) has to undergo a process called individuation to make proper contact with the Self (the divine unconscious) and thus reach the answer to life, the universe, and everything. Dreams are where our inner God attempts to speak to us, but people are hopeless at interpreting their dreams. The more successful you become at individuation, the better sense you can make of your all-important dreams. If the conscious ego and unconscious Self have a poor relationship, disaster usually follows. Two of the biggest dangers are "inflation" and "alienation". These are currently happening on an epidemic scale and infecting the whole world with madness. The Mind War can end only if the two natures of Jesus - human and God - can at last learn to be on the same page, and understand each other's role. Come inside and find out what has to be done. [Job, Jonah, and the Unconscious](#) Aug 27 2022 Job, Jonah, and the Unconscious is the latest work by natural theologian M.A. Corey. It is a ground-breaking synthetic work utilizing the unique perspective of modern depth psychology to interpret the underlying meaning of two of the most fascinating books of the Old Testament, Job and Jonah. In the process it weaves together a unique development perspective on the age-old problem of evil that satisfies both the traditional theologian and the hard-core skeptic. It is able to do this by resorting to a concept of metaphysical necessity that is able to account for the temporary existence of evil in the world, while simultaneously preserving the omnipotence and omnibenevolence of God. The end result of this fascinating study is the elucidation of the cause of moral evil, along with the general defense of traditional monotheistic religion. Contents: JONAH AND THE UNCONSCIOUS; History or Allegory?; A Psychological Analysis of the Book of Jonah; The Identity of the Shadow; Repression and the Concept of Demon Possession; The Storm; Significance of the Fish; The Prayer; The Mission to Nineveh; A Theodicy for Natural Evils; JOB: The Story of Job; The Relationship Between Knowledge and Evil; Job's Goodness and the Nature of Evil; The Nature of Hell; A Developmental View of Salvation; Elipjazz's First Speech; Job's Reply;

Sigmund Freud's Christian Unconscious Feb 06 2021 Vitz psychoanalyzes Freud's motivation to reject religion.

The Cynic and the Fool Jan 20 2022 The questioning of religion is the beginning of a flood, one that cannot be contained and will soon drown every theological, political, economic, and cultural orthodoxy that pledged its allegiance to a sinking cause. We are in just such an era of revolt, and those with eyes to see are learning to interrogate motives. When we are told of an idea that cannot possibly be true, the most immediate question is this: does the speaker so very foolishly believe their own words, or is the person a cynic who knows perfectly well how they manipulate the truth? As individual personalities transform into a collective drive, the aftermath is a brutal mix of motives, fictions, and anxieties. *The Cynic & the Fool* explores theology and politics through the lens of our unconscious motives, our

clever repression, and our deceptive denial. In nine chapters interspersed with nine parables, DeLay unites psychoanalysis, philosophy, and theology together for an accessible yet critical theory of culture. There could not be a more crucial moment to settle these questions. Why do we feel such anxiety over the most abstract orthodoxies, what conflicts of interest are we facing, and why we are commanded to see the world a certain way?

[The Feeling of Meaninglessness](#) Mar 22 2022

In *The Feeling of Meaninglessness*, Viktor Frankl, the founder of logotherapy, a psychotherapeutic method which focus on a will to meaning as the driving force of human life, takes a look at how the modern condition affects the human search for meaning. In this series of articles and essays, he discusses how many people suffer from pervasive feelings of meaninglessness in their lives, despite the great material comforts of industrial society. He attributes this sense of meaninglessness to a neglect of our existential needs and offers practical insights and guidelines for how to overcome this meaninglessness and regain mental health through engagement with our existential needs and selves.

[Blake, Jung, and the Collective Unconscious](#) Dec 07 2020 In this thoughtful discussion of Blake's well-known *Marriage of Heaven and Hell*, Singer shows us that Blake was actually tapping into the collective unconscious and giving form and voice to primordial psychological energies, or archetypes, that he experienced in his inner and outer world. With clarity and wisdom, Singer examines the images and words in each plate of Blake's work, applying in her analysis the concepts that Jung brought forth in his psychological theories.

Answer to Job Jun 24 2022 Of all the books of the Bible few have had more resonance for modern readers than the *Book of Job*. For a world that has witnessed great horrors, Job's cries of despair and incomprehension are all too recognizable. The visionary psychotherapist Carl Gustav Jung understood this and responded with this remarkable book, in which he set himself face-to-face with 'the unvarnished spectacle of divine savagery and ruthlessness'. Jung perceived in the hidden recesses of the human psyche the cause of a crisis that plagues modern humanity and leaves the individual, like Job, isolated and bewildered in the face of impenetrable fortune. By correlating the transcendental with the unconscious, Jung, writing not as a biblical scholar

but 'as a layman and physician who has been privileged to see deeply into the psychic life of many people', offers a way for every reader to come to terms with the divine darkness which confronts each individual.

The Digital God Jan 26 2020 As humans charge up the steep slope of technological innovation, digital age media increasingly shapes our perception of everything--even spiritual matters. The next stage of spiritual development may be the product of a digital interface between our own image of the divine, virtual reality technology that produces real perceptions, and with devices that stimulate areas of the brain associated with spiritual experience. This book explores the influence of digital media on spirituality and the impact of the digital environment on our experience of the spiritual world. The author predicts a future in which digital technology and neuroscience will combine to create a new understanding of the divine. How to Become God Mar 29 2020 Is it possible to become God? Is the unconscious mind nothing other than the Heaven gate? This is the extraordinary account of the ancient and controversial secret society known as the Pythagorean Illuminati of how it is possible for everyone to attain divinity. There are two vast obstacles to overcome, one relating to a lack of consciousness, and the other to an over-identification with consciousness. The followers of the Abrahamic religions are "bicameral", meaning they are highly submissive and obey "voices" emanating from their unconscious. Atheistic scientific materialists are

overly rational and deny the existence of anything other than their mortal ego-consciousness. They have cut themselves off from the most mysterious domain in existence: that of the two numbers zero and infinity. This may be the most revolutionary book in history, presenting a unique and breathtaking view of reality. If you cannot find the answers to your profoundest questions in the God Program, you will find them nowhere. The Unconscious Christian Sep 27 2022 Hall explores a fascinating array of religious images in the dreams of his patients, and the relation of these images to the mythology of religious traditions all over the world.

Man's Search for Ultimate Meaning Apr 10 2021 Viktor Frankl is known to millions as the author of *Man's Search for Meaning*, his harrowing Holocaust memoir. In this book, he goes more deeply into the ways of thinking that enabled him to survive imprisonment in a concentration camp and to find meaning in life in spite of all the odds. Here, he expands upon his groundbreaking ideas and searches for answers about life, death, faith and suffering. Believing that there is much more to our existence than meets the eye, he says: 'No one will be able to make us believe that man is a sublimated animal once we can show that within him there is a repressed angel.' In *Man's Search for Ultimate Meaning*, Frankl explores our sometimes

unconscious desire for inspiration or revelation. He explains how we can create meaning for ourselves and, ultimately, he reveals how life has more to offer us than we could ever imagine.
